

Colorful loose fill, rubber chunk material with excellent impact absorption

GT Impax Loose Fill Rubber Surfacing is comprised of a unique rubber chunk that offers the best impact absorbing properties of all loose-fill surfacing options. GT Impax offers an assortment of lively colors to compliment any playground theme perfectly.

GT Impax Loose Fill Rubber will not attract insects or animals. With proper drainage, the chunks dry quickly and will not freeze in colder temperatures.

Tips

- Use wear mat inserts under swings and at end of slide exits to reduce displacement
- Containment systems like curbs will reduce the spread of surfacing into non-play spaces
- Raking is required to maintain compliant depths
- Adequate drainage is an important preventative measure for best functionality

Basic Specifications

- Uniquely processed rubber chunks comprised of recycled rubber
- Safety-rated and tested for fall heights up to 12 feet
- Meets all applicable ASTM standards
